UBIX
NETWORK

Welcome!

The most important thing you will do when you enter the Ubix network journey, is the creation of 2 x wallets in the Ubikiri Platform.
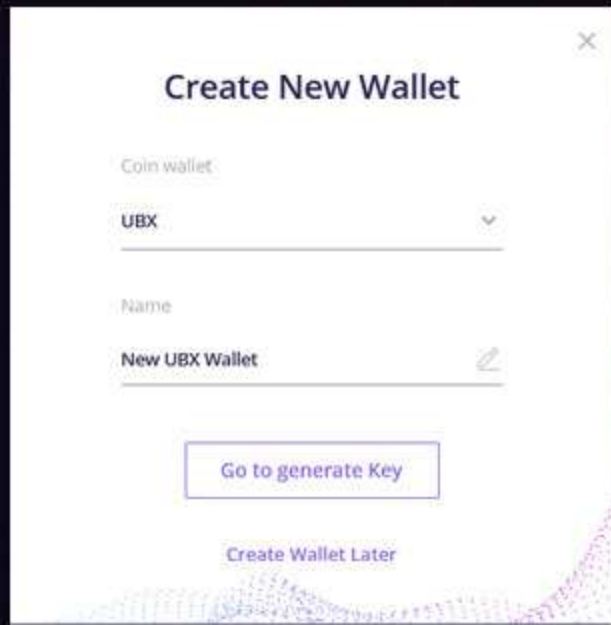

1 x Eth Wallet
1 x UBX Wallet

With these wallets you will get a set of keys.

1 x Keystore file (you will create a password for this file as well)

1 x private key.This is just a traditional private key you copy and paste as text

UBIX
NETWORK

1)

Create New Wallet

Coin wallet

UBX

Name

New UBX Wallet
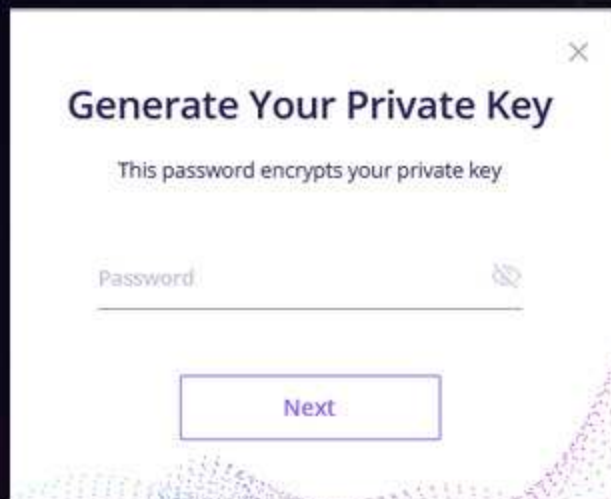

Go to generate Key

Create Wallet Later

This is the creation of the UBX wallet.

Select your prefered name and click :

"Go to generate key"

Please ensure all anti virus is switched off on your device

Save My Private Key

●●●

Don't Lose It
Be careful, it can not be recovered if you lose it.

Make a Backup
Secure it like the millions of dollars it may one day be worth.

Don't Share It
Your funds will be stolen if you use this file on a malicious phishing site.

Be Careful!
If you have problems downloading a file or displaying a private key do not transfer money to this address!

Download Keystore File

1) Save your private key in a safe place. This is a text file. Use Online secure cloud storage, and an encrypted USB stick if you can.

Save My Private Key

Don't Lose It
Be careful, it can not be recovered if you lose it.

Make a Backup
Secure it like the millions of dollars it may one day be worth.

Don't Share It
Your funds will be stolen if you use this file on a malicious phishing site.

Be Careful!
If you have problems downloading a file or displaying a private key do not transfer money to this address!

Download Keystore File

2) Next download the keystore file. This is an actual FILE.

Save the FILE.

UBX-KeyStore-2021-10-25T20 27 59.172Z	25/10/2021 21:28	172Z File	1 KB

Make sure its a ***Z file type

YOU HAVE NOW CREATED A UBX WALLET, SAVED A KEYSTORE FILE AND SAVED A PRIVATE KEY WITH PASSWORD.

To access funds, you need either Keystore file PLUS the password you just created, or simply your private key
